Smart device

4. Charging cord
5. Volume controls
6. Power button

Auscultation Trainer App

7. Side menu
8. Battery level
9. Device connected

RealityScope

10. Charging cord
11. USB port
12. Power button
13. Battery level lights
14. Bluetooth pairing button
15. Pairing light
16. Audio boost button
17. Audio boost light
18. Error light

Set-up instructions:

Torso and skin overlay

1. Stand the torso on a flat surface.
2. To remove the skin overlay, unzip it and peel it carefully up and off of the torso.
3. To put the skin overlay on, make sure it is unzipped, pull it over the top over the torso with the zipper facing the back side, then pull the zipper down.

NOTE: The skin overlay is intended for use during assessment or advanced practice.

Smart device

1. Charge the tablet with the included charging cord.
2. Press the power button to turn it on.

RealityScope

1. Charge the **RealityScope** with the included charging cord.
2. Slide the diaphragm of a stethoscope onto the **RealityScope**.
3. Press the power button to turn on the **RealityScope** and press and hold it to turn it off. Three green lights indicate a full battery.
4. Press the bluetooth button when you are ready to pair the **RealityScope** to the app.
5. Press the audio boost button for louder sounds. This will turn on the orange light next to the audio boost button.
6. If the red error light is on, contact the Realityworks product support team.

Listening to sounds

1. Students can listen to sound through the stethoscope that is attached to the paired **RealityScope**.
2. If desired, use the audio port or bluetooth to connect headphones or a speaker for playing sounds through the app during practice mode.

Admin instructions:

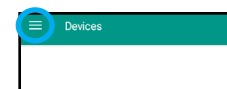

Access admin main menu

1. Make sure you have the **RealityScope** turned on, then open the Auscultation Trainer app on the tablet by tapping the icon.
2. When the Auscultation Trainer app opens, tap the star in the Realityworks logo to access the admin menu. The screen will turn from red to blue.
3. If the admin menu does not appear, close the app and try again.
4. If a **RealityScope** is not currently paired, the app will cue you to when you open it. Tap **SET UP DEVICES** and follow the directions below to set up a **RealityScope**.

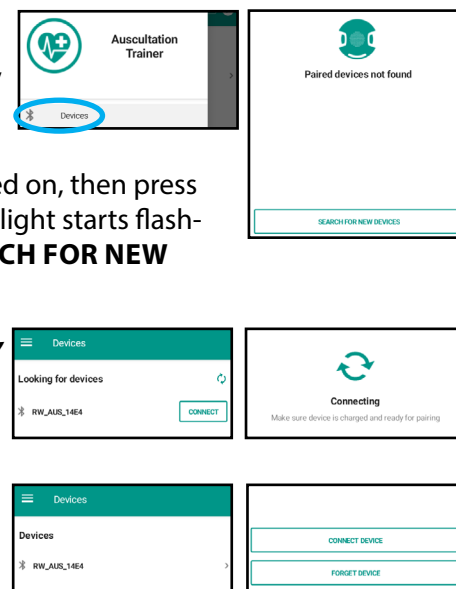

Side Menu

1. Tap on the three lines in the upper-left corner to access the side menu.

Set up a RealityScope

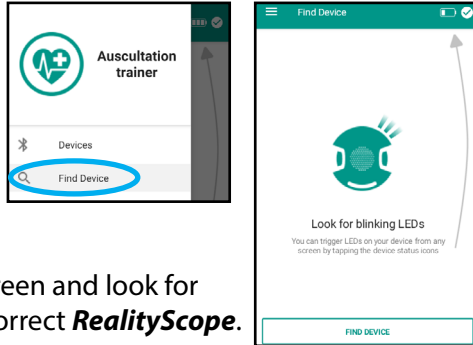

1. If not already on the Devices screen, open the side menu and select **Devices**.
2. Make sure the **RealityScope** is turned on, then press the bluetooth button until the blue light starts flashing. Once it is flashing, tap on **SEARCH FOR NEW DEVICES**.
3. Once the app locates a **RealityScope**, it will show up on the screen. Tap the **CONNECT** button to finish the setup process.
4. If you are having issues connecting to a device that appears on your app, tap on the device and then tap **FORGET DEVICE**, then repeat the steps to connect again.

AUSCULTATION TRAINER

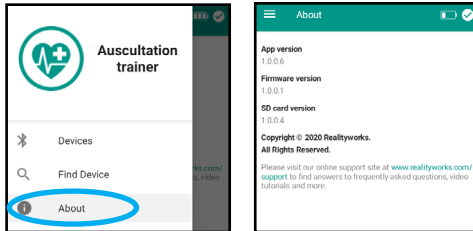

Find an already linked RealityScope

1. Open the side menu and select **Find Device**.
2. Tap on **Find Device** on the main screen and look for blinking LED lights to identify the correct **RealityScope**.

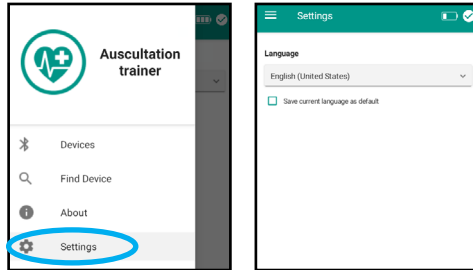

Check version information

1. Tap on **About** in the side menu.
2. Review version information and contact product support if needed.

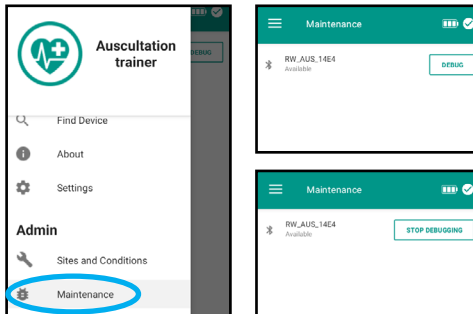

Change the language

1. Tap on **Settings** in the side menu.
2. Select the preferred language from the dropdown menu.
3. Check the box to save the current language as default if desired.

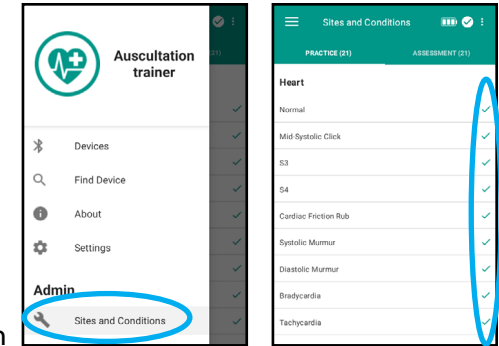

Debug a RealityScope

1. Contact the Realityworks product support team.
2. Tap on **Maintenance** in the side menu.
3. Follow directions provided by the product support team.

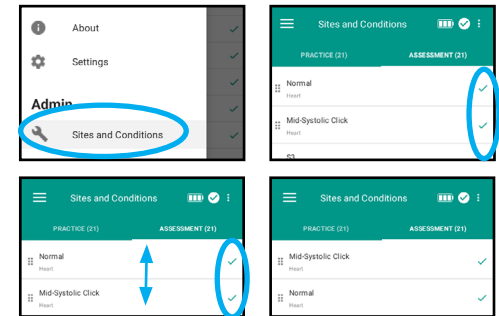

Select Sites and Conditions for Student Practice

1. Open the side menu and select **Sites and Conditions**.
2. In the **Practice** tab, you can view all 21 sites and conditions.
3. Select or unselect which conditions you would like the students to practice by tapping on them. The color of the checkmark will change to gray when it is unselected.

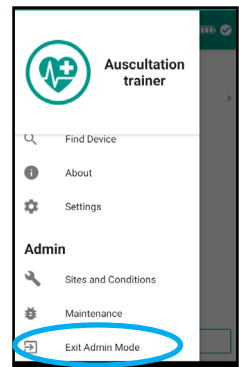

Select Sites and Conditions for Assessment

1. Open the side menu and select **Sites and Conditions**.
2. In the **Assessment** tab, select or unselect which conditions you want the students to be assessed on. Unselecting will change the color of the checkmark to gray and move it to the bottom of the list.
3. Drag the conditions to reorder them as desired.

Exit admin main menu

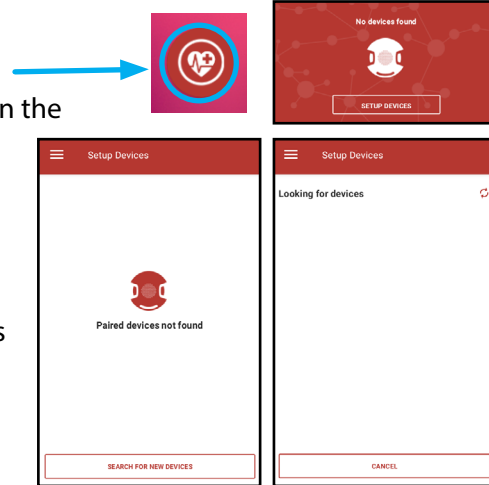

1. To exit the admin main menu and access the student menu, open the side menu and select **Exit Admin Mode**.

Student instructions:

Access student menu

1. Make sure you have the **RealityScope** turned on, then open the Auscultation Trainer app on the tablet by tapping the icon.
2. If a **RealityScope** is not currently paired, the app will cue you to when you open it. Tap **SET UP DEVICES** and follow the directions below to set up a **RealityScope**.

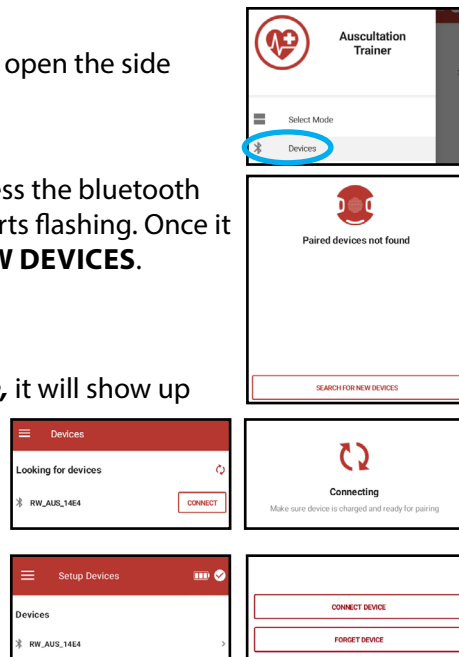

Side Menu

1. Tap on the three lines in the upper-left corner to access the side menu.

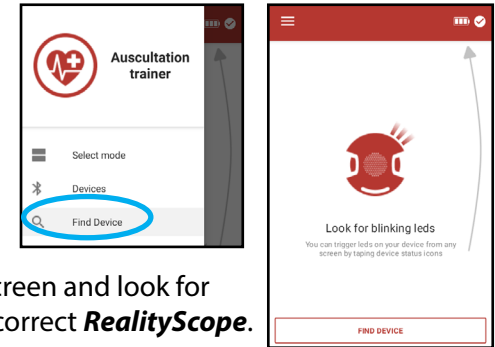

Set up a RealityScope

1. If not already on the **Devices** screen, open the side menu and select **Devices**.
2. Power on the **RealityScope**, then press the bluetooth button on the until the blue light starts flashing. Once it is flashing, tap on **SEARCH FOR NEW DEVICES**.
3. Once the app locates a **RealityScope**, it will show up on the screen. Tap the **CONNECT** button to finish the set up process.
4. If you are having issues connecting to a device that appears on your app, tap on the device and then tap **FORGET DEVICE**, then repeat the steps to connect again.

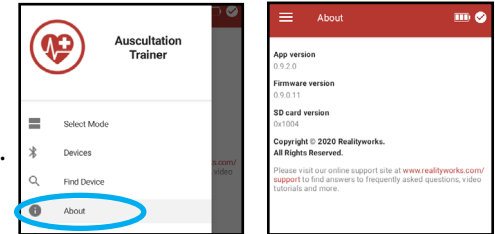

Find an already linked RealityScope

1. Open the side menu and select **Find Device**.
2. Tap on **Find Device** on the main screen and look for blinking LED lights to identify the correct **RealityScope**.

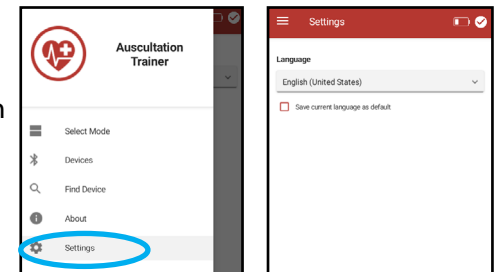

Check version information

1. Tap on **About** in the side menu.
2. Review version information and contact product support if needed.

Change the language

1. Tap on **Settings** in the side menu.
2. Select the preferred language from the dropdown menu.
3. Check the box to save the current language as default if desired.

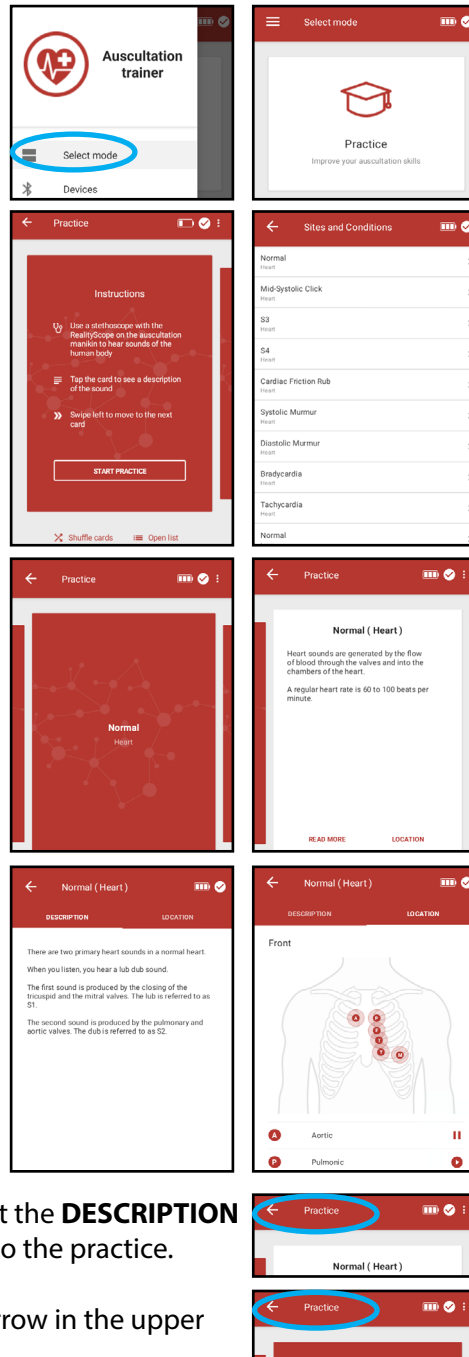

Listening to sounds

1. You can listen to sound through the stethoscope that is attached to the paired **RealityScope**.
2. If desired, use the audio port or bluetooth to connect headphones or a speaker for playing sounds through the app during practice mode.

AUSCULTATION TRAINER

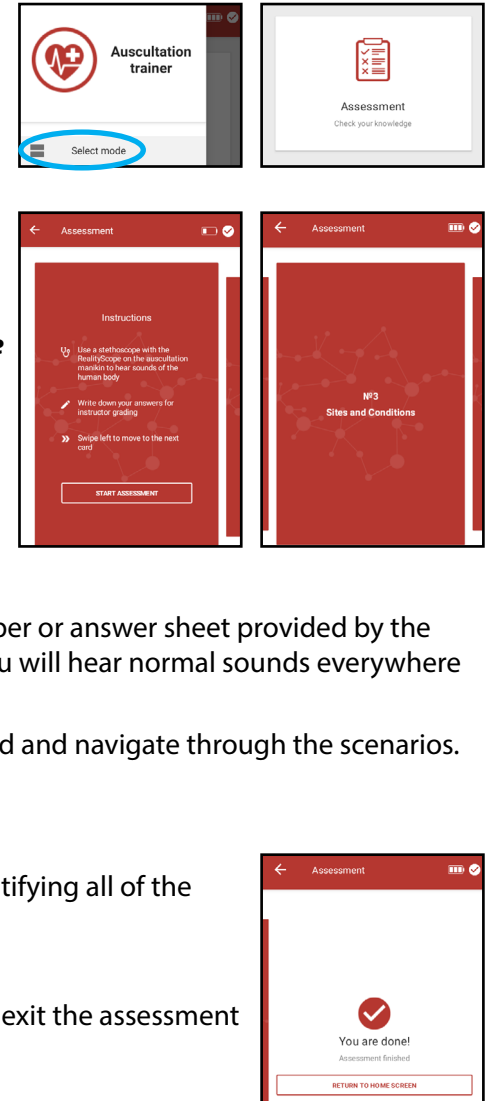

Practice mode

1. Tap on "Select mode" in the side menu.
2. Tap the **PRACTICE** button to enter practice mode.
3. Read the instructions, then tap the **START PRACTICE** button to begin.
 - a. Tap "Shuffle cards" to practice in a random order.
 - b. Tap "Open list" to view the list of upcoming sites and conditions. From here you can select a specific one to practice.
4. For each card, use the **RealityScope** attached to your stethoscope to practice auscultation on the sites and conditions.
5. Tap on the card to learn more about the specific site and condition.
6. Tap **READ MORE** to access an in-depth description.
7. Tap **LOCATION** to view the location of the specific site and condition. In this screen, you can play the sounds that you should be listening for through headphones or a speaker.
8. Tap the left arrow in the upper left-hand corner of the screen to exit the **DESCRIPTION** and **LOCATION** screens and return to the practice.
9. Swipe left to move to the next card.
10. To exit practice mode, tap the left arrow in the upper left-hand corner of the screen.

Assessment mode

1. Tap on "Select mode" in the side menu.
2. Tap the **ASSESSMENT** button to enter assessment mode.
3. Read the instructions, then tap the **START ASSESSMENT** button to begin.
4. For each card, use the **RealityScope** attached to your stethoscope to assess various locations on the torso to hear the sounds and determine what condition it might be.
5. Write your answer on a sheet of paper or answer sheet provided by the instructor. For example, if it is S1 you will hear normal sounds everywhere except for that location.
6. Swipe right to move to the next card and navigate through the scenarios.
7. Tap **FINISH** once you are done identifying all of the scenarios.
8. Tap **RETURN TO HOME SCREEN** to exit the assessment mode.

NEED MORE HELP?

Cleaning instructions:

Torso

- Wipe down with a disinfectant wipe

Skin

- Wipe down with a disinfectant wipe
- Machine wash delicate on cold, then hang to dry

RealityScope

- Wipe down with a disinfectant wipe
- Do not dunk in liquid or heavily spray as there are electronic components inside
