

COPD and Mobility Challenges Simulation

Quick Start Guide

Use this wearable simulation kit to create interactive, immersive scenarios for your students that help them walk in the shoes of an individual with a variety of physical conditions and challenges.

Product includes:

1. COPD Simulation (2 student kits)

- a. Abdominal binder
- b. Straws

2. Mobility Challenge Simulation (4 student kits)

- a. Folding cane
- b. Overshoes

3. Nursing Careers: Working with Geriatric Patients Scenario Cards

4. Soft-sided storage case

- Downloadable curriculum and student workbook
- 1-year limited warranty

COPD AND MOBILITY CHALLENGES SIMULATION

Set-up instructions:

COPD Simulation

1. Place the abdominal binder around the student, directly under the rib cage.
2. Have the student exhale and then pull the belt tight.
3. Secure the belt with the hook and loop fasteners.

4. Cut the straws to two-inch lengths and have the students try to breathe through them.

Mobility Challenges Simulation

1. Have the student remove their shoes and place their stocking feet into the overshoe that best fits their feet.
2. Secure the overshoe to their feet with the hook and loop fasteners. The hooks can be removed and placed anywhere on the loop strap for a secure fit.

2. Carefully unfold the cane and have the student hold it while you adjust the height as needed.

Cleaning instructions:

- Spot clean the abdominal binder and overshoes with a washcloth and gentle soap. Pat dry.
 - Sanitize the cane with disinfectant wipes
-

Additional help and information
