

Blood Pressure Simulator Sole Source Statement

This is to certify that Realityworks, Inc. is the sole source of the Blood Pressure Simulator possessing the following characteristics and features:

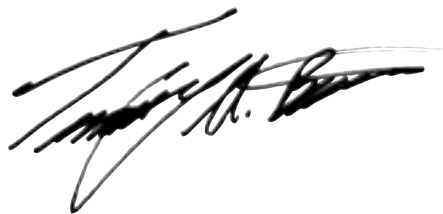

- Lifelike simulator that allows you to preset values for both systolic and diastolic pressures
- May be used on a manikin or real person to take blood pressure
- Provides practice for listening to and distinguishing blood pressure sounds prior to actual clinical experience
- Includes independent practice mode for students with infinite random blood pressure scenarios
- Includes 10 preset test scenarios but can also program any desired scenario
- Includes release-rate feedback
- Includes random scenarios with auscultation gap
- Bladder for cuff is located in the controller so the simulator may be safely used for unlimited uses without risk or harm
- Sphygmomanometer with Korotkoff speaker
- Pulse band for radial pulse practice
- Storage case
- 2 AA Alkaline batteries
- Curriculum
- Quick Start Guide
- Limited 1-year warranty

Realityworks is the originator of the Blood Pressure Simulator and holds all copyrights and patents to it.
