

Suggestions for Cleaning Baby:

Try any of the following cleaners to remove dirt stains from Baby's vinyl:

For Best Results

- Goop® Hand Cleaner with Pumice
- GoJo® Orange Pumice Hand Cleaner
- Mr. Clean® Magic Eraser*
- Acne Cream**

Alternatives

- Baking Soda
- Tech Cleaner
- Soft Scrub® Cleanser without bleach Oxi Clean
- Mild Dish Soap
- All-purpose cleaner
- Rubbing alcohol

* First, wet the eraser with water, and then squeeze out the excess. It should be a little damp for use. Excess water is squeezed out so that it doesn't end up on other surfaces. Next, gently rub the eraser on the surface to remove tough dirt and grime.

** Place a small amount of Clearasil Acne Cream-10% Benzyl Peroxide on the stain area. Place in full sunlight for 1-3 days. Baby must be in full sunlight for acne cream to be effective. Wash stained areas with a combination of Goop® or GoJo® and water.

We have found NO effective product to remove ink stains from Baby's vinyl.

Depending on the type of cleaning that needs to be done, you may use a green kitchen scrubby or the equivalent to rub the cleaner on the stain. You can then remove the cleaner with a damp cloth.

IMPORTANT: Do NOT use any cleaners or scrub pads on Baby's painted areas, including head, lips and cheeks. Use only a mild soap and water solution and soft cloth on these areas.

Baby's skin stains easily and soaks up inks and dyes. Keep the following items away from Baby's skin to prevent stains:

- Newsprint and other printed materials
- New, unwashed clothing- especially jeans, sweatshirts and fleece
- Pens and markers

Suggestions for Cleaning Diapers:

Baby's diapers can be machine washed in cold gentle cycle and tumble dry low. We recommend line drying to prevent wear and tear.
