

Creating an Instructor Account

The instructor account manages classes, students, and the welds assigned to that class.

1. Launch guideWELD VR

2. Configuration Screen

Click PLAY to continue.

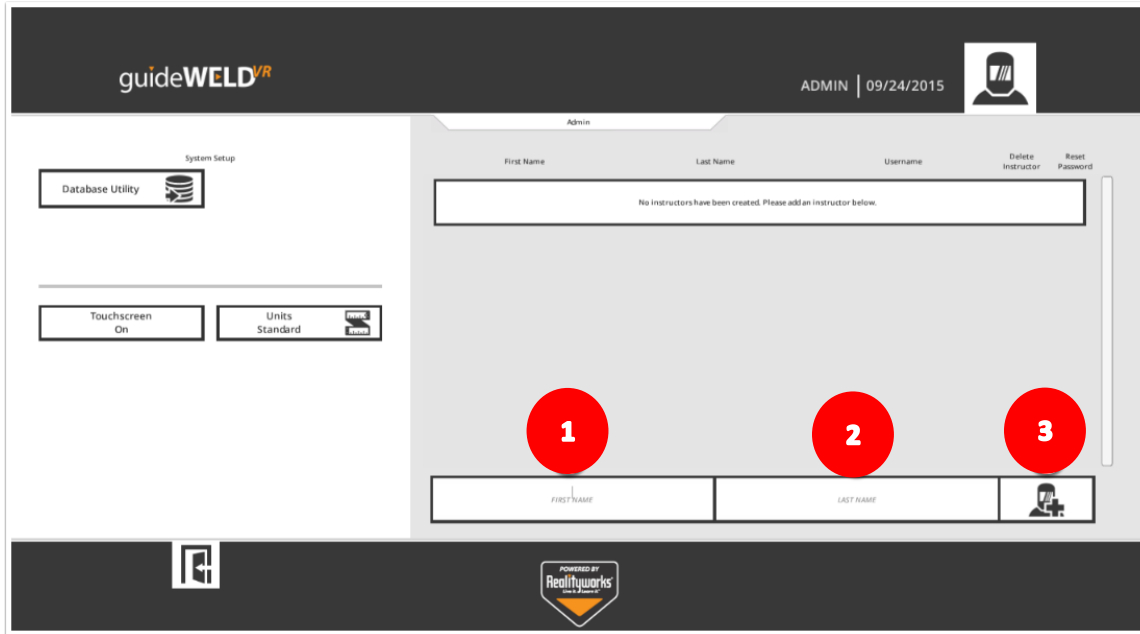

3. Login Screen

First time you use guideWELD VR login with username of "admin" and password of "admin". You will be prompted to change the admin password. Change the password to "123abc". If this is not your first time logging in as admin, use the password you have previously created or was assigned to you. Click LOGIN to continue.

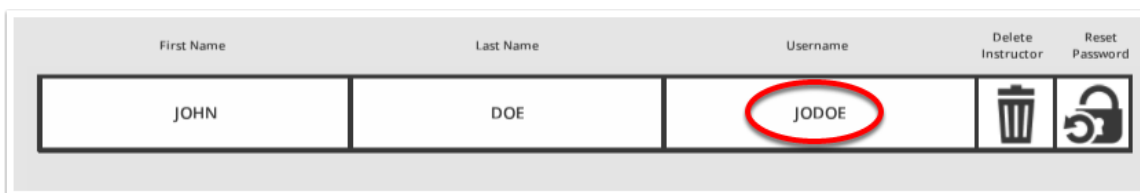

4. Main Administrator Screen

Create your instructor account by entering your first name in figure 1, last name in figure 2 then click the add icon in figure 3.

5. Instructor Username

The username for the instructor account you created will be the first two letters of your first name and first eight letters of your last. The username for John Doe is shown in the example below.

6. Login as Instructor for First Time

The password for login on the first time is "password". After clicking LOGIN you will be asked to change it from default.
