guideWELD® VR Welding Simulator Sole Source Statement

This is to certify that Realityworks, Inc. is the sole source of the guideWELD® VR Welding Simulator possessing the following characteristics and features:

- Consists of a stand-alone virtual reality MIG/stick welding simulator, records weld assessments, views reports of welding technique, allows for you to create your own customizable welding assignments, and gives you the guideWELD VR curriculum
- The guideWELD VR workstation comes with a MIG and/or Stick welding gun, power supply, and guideWELD VR software that installs to your own computer with student and instructor logins.
 - Technique assessment on:
 - Work Angle, Travel Angle, Speed and Nozzle to Plate Distance
 - Difficulty levels (novice, intermediate and advanced)
 - Tee, lap, and butt joints
 - Steel, aluminum, and stainless steel.
 - 3 different metal thicknesses.
 - Student's virtual welds are recorded for student playback and instruction
 - No licensing fees and unlimited seats for users
- Decreases cost of consumables as students produce quality welds faster
- Promotes manual dexterity and muscle memory by practicing proper techniques.

Realityworks is the originator of the guideWELD® VR Welding Simulator and holds all copyrights and patents to the guideWELD® VR Welding Simulator .
