The Male Pelvic Cavity Model is a life-size model composed of four parts. It is dissected through the median sagittal plane to provide views of external and internal structures. The removable parts include the penis and scrotum, showing medial and transverse cuts, and the rest of the male reproductive system with detailing of internal structures. It comes mounted on a white base, making it easy to display and study.

**Product includes:**
- Male Pelvic Cavity Model on display stand
- Full color details
- 3 detachable parts
- 1-year limited warranty
