Arm Amputation and Bleeding Control Trainer

Create realistic practice scenarios focused on controlling bleeding and hemorrhaging.

Adult Nursing Manikin

Create realistic, interactive scenarios for practicing over 20 basic care procedures, including CPR.

Closed Fracture Trauma Manikin

Practice key nursing skills like intramuscular injection administration as well as palpating, manipulating and immobilizing closed fractures.

Spine Board and Strap Sets

Create realistic scenarios for practicing immobilizing supine patients.

AED Trainer

Emphasize safety when teaching Basic Life Support (BLS) and Automated External Defibrillator (AED) skill.

Blood Pressure Simulator

Practice taking blood pressure safely and consistently.

BVM Ventilation Trainer

Teach proper techniques for manual ventilation with a bag valve mask and oxygen administration via a non-rebreather mask.

Advanced Airway Intubation Simulator

Demonstrate and practice proper endotracheal intubation procedures.

Epinephrine Training Kit

Create realistic practice scenarios focused on treating anaphylactic patients.

Dual-Head Stethoscope 10-Pack

Give students hands-on practice listening to high- and low-frequency sounds through a stethoscope.

Airway Suction Trainer

Practice airway suction via the nasal cavity, oral cavity and tracheostomy sites.

Naloxone Training Kit

Create realistic scenarios focused on administering naloxone to patients.

Pediatric Nursing Manikin

Perform over a dozen nursing procedures providing valuable patient clinical skills training.

Infant Vital Signs Trainer

Practice taking basic infant vital signs and conduction newborn physical assessments.

Create a Custom Pathway Package

Choose hands-on learning aids and curricula that meet your unique program needs.

All products can be purchased separately

EMT Training Curricula Overview

All curricula include lesson plans, presentation slides, assessments and other student materials.

Experiential Learning Tools	Curriculum Length	Lesson Topics
Adult Nursing Manikin	10 hours	• Bathing • Range of Motion • Intramuscular Injections • Intradermal Injections • Catheterization • Pressure Injuries • Ostomy Care • IV Bolus Medication • Phlebotomy • IV Insertion
Closed Fracture Trauma Manikin	6-8 hours	• Introduction to Immobilization and Splinting Techniques • Range of Motion • Intramuscular Injections • Ostomy Care • Bathing
Pediatric Nursing Manikin	10 hours	• Basic Patient Care – Pediatric Bathing • Introduction to Pediatric Catheterization • Introduction to Pediatric Immunizations • Introduction to Pediatric Endotracheal Intubation • Introduction to Pediatric Intravenous (IV) Bolus Medication Administration • Introduction to Pediatric IV Insertion • Introduction to Pediatric Ostomy Care • Introduction to Pediatric Phlebotomy • Pediatric Range of Motion
Blood Pressure Simulator	1-2 hours	• Patient-Focused Care • Procedures for Taking Blood Pressure
Naloxone Training Kit	1.5 hours	• Introduction to Naloxone Administration
Epinephrine Training Kit	1.5 hours	• Introduction to Epinephrine Administration
Advanced Airway Intubation Simulator	1 hour	• Introduction to Endotracheal Intubation • Patient-Focused Care
BVM Ventilation Trainer	1-2 hours	• Purpose and parts of a bag valve mask • Correct use of a bag valve mask • Troubleshoot common bag valve mask problems
Arm Amputation and Bleeding Control Trainer	1.5-2 hours	• Introduction to Bleeding Control and Shock Management
Infant Vital Signs Trainer	6 hours	• Introduction to Infant Auscultation • Introduction to Infant Blood Pressure • Introduction to Infant Vital Signs • Newborn Physical Assessment
AED Trainer	2.5 hours	• Cardiac Arrest Management and AED
Airway Suction Trainer	1 hour	• Suctioning
