Venipuncture and IV Hand Models

Practice basic venipuncture and intravenous insertion procedures.

Adult Nursing Manikin

Create realistic, interactive scenarios for practicing over 20 basic care procedures, including CPR.

Pediatric Nursing Manikin

Perform over a dozen hands-on pediatric nursing procedures.

Medical Manikin Quick Scenario Set

Access 100 complete, ready-to-use scenarios for use with low- and medium-fidelity manikins.

Buttocks Ventrogluteal IM Simulator

Teach ventrogluteal intramuscular injection accuracy.

Blood Pressure Simulators

Practice taking blood pressure safely and consistently.

Nursing Career Scenario Cards

Practice soft skills within the context of real-world nursing situations.

Multipurpose Venous Training Arms

Provides lifelike opportunities for teaching and practicing basic intramuscular injection, medication administration, basic intravenous insertion, and venipuncture procedures.

Auscultation Trainer Class Pack

Teach students rib palpation, stethoscope placement, and how to accurately recognize heart, lung, and bowel sounds.

Infant Vital Signs Trainer

Practice taking basic infant vital signs and conducting newborn physical assessments.

Large Injection Pads

Practice injections into skin, subcutaneous tissue, and muscle, with or without liquid.

Small Injection Pads

Practice injections on a wearable pad that includes a pliable, skin-like surface.

Male and Female Catheterization Trainers on Stands

Give students authentic, hands-on catheterization practice with the most lifelike genitalia models on the market.

Create a Custom Pathway Package

Choose hands-on learning aids and curricula that meet your unique program needs.

All products can be purchased separately

Nursing Curricula Overview

All curricula include lesson plans, presentation slides, assessments, and other student materials.

Experiential Learning Tools	Curriculum Length	Lesson Topics	
Infant Vital Signs Trainer	6 hours	• Introduction to Infant Auscultation • Introduction to Infant Blood Pressure	• Introduction to Infant Vital Signs • Newborn Physical Assessment
Pediatric Nursing Manikin	10 hours	• Basic Patient Care – Pediatric Bathing • Introduction to Pediatric Catheterization • Introduction to Pediatric Immunizations • Introduction to Pediatric Endotracheal Intubation • Introduction to Pediatric Intravenous (IV) Bolus Medication Administration	• Introduction to Pediatric IV Insertion • Introduction to Pediatric Ostomy Care • Introduction to Pediatric Phlebotomy • Pediatric Range of Motion
Adult Nursing Manikin	6-8 hours	• Bathing • Range of Motion • Intramuscular Injections • Intradermal Injections • Catheterization	• Pressure Injuries • Ostomy Care • IV Bolus Medication Administration • Phlebotomy • IV Insertion
Auscultation Trainer Class Pack	1-2 hours	• Introduction to Auscultation	
Male and Female Catheterization Trainers on Stands	1 hour	• Intramuscular Injections • Phlebotomy Procedures • IV Insertion Procedures	• Medication Administration • Patient-Focused Care
Multipurpose Venous Training Arms	2-3 hours	• Intramuscular Injections • Phlebotomy Procedures • IV Insertion Procedures	• Medication Administration • Patient-Focused Care
Venipuncture and IV Hand Models	2-3 hours	• IV Insertion Procedures • Medication Administration	• Phlebotomy • Patient-Focused Care
Blood Pressure Simulators	1-2 hours	• Patient-Focused Care • Procedures for Taking Blood Pressure	
Buttocks Ventrogluteal IM Simulator	1 hours	• Intramuscular Injections • Patient-Focused Care	
Large Injection Pads	3 hours	• Intradermal Injections • Subcutaneous Injections • Intramuscular Injections • Patient-Focused Care	
Small Injection Pads	2 hours	• Intramuscular Injections • Patient-Focused Care
