Hemiplegia Simulator

Simulate paralysis on one side of the body so students gain an understanding of life with this condition.

RealCare® Geriatric Simulators

Enable students to personally experience various age-related physical and visual challenges so they can develop empathy and understanding toward older patients.

Geriatric Sensory Impairment Kit

Simulate common hearing impairments, arthritis and tremors so students can begin to understand the challenges older patients experience daily.

Geriatric Nursing Manikins

Practice over 15 basic nursing functions on a lifelike elder care manikin.

Geri Foot Care Model

Practice caring for geriatric feet, including treating bunions, nail fungus and ingrown nails.

Pressure Injury Kit

Practice diagnosing and caring for realistic pressure injuries on humans or manikins.

Blood Pressure Simulator

Practice realistic blood pressure measurement on humans or manikins.

Geriatric Skin Conditions Kit

Practice diagnosing and caring for geriatric skin conditions on humans or manikins.

Vinyl Catheterization Simulators

Give students authentic, hands-on catheterization practice with the most lifelike genitalia models on the market.

Geriatric Medication Management Simulation Kit

Simulate a loss of tactile sensation and visual impairments while challenging students to manage multiple medications to promote empathy and understanding.

Diabetes Education Kit

Help students understand the impact of diabetes on the body.

Nursing Career: Geriatric Patients Scenario Cards

Practice soft skills within the context of real-world geriatric care careers.

Create a Custom Pathway Package

Choose hands-on learning aids and curricula that meet your unique program needs.
