

Feline Vet Trainer

Curriculum Overview

Designed for:

- Animal/veterinary science programs
- High school students

Length:

This three-hour curriculum is comprised of three lessons. With supplemental materials, this curriculum can be adapted to a longer block of time.

Goal:

To help participants learn basic cat handling skills and CPR, as well as injection, venipuncture, and catheterization skills.

Synopsis:

This kit and accompanying curriculum provide detailed information about cat care and handling. It includes lessons on feline CPR, injections, and more. The lessons and activities include objectives, materials required, and approximate class time.

Curriculum Components:

- Curriculum
- Student materials
- Slide presentations

Learning Objectives:
