

IDEAL CHILDCARE CAREER PATHWAY

Realityworks' childcare career training solutions feature immersive, hands-on tools for training future childcare professionals and engaging students in childcare career exploration.

Career Exploration in Education and Training

Goals: Expose students to a variety of careers within education and training. Introduce students to soft skills needed for success in any career and engage them in scenario-based learning specific to childcare careers.

Recommended Hands-On Learning Aids:

- Education and Training Career Exploration Kit
- Employability Skills Program
- Child Care Career Scenario Cards
- Shaken Baby

Human Growth and Development

Goals: Provide visual, hands-on resources, like models and kits, to engage students in learning.

Recommended Hands-On Learning Aids:

- Fetal Development Kit
- Infant Health and Safety Pack
- Food Science and Nutrition Lab Kit
- Birth Defects and Disorder Model Set
- Drug-Affected Baby
- Fetal Alcohol Syndrome Baby
- Premie Baby

Fundamentals of Education Professions

Goals: Teach important foundational skills relevant to child care, including teaching pedagogy, learning environment, and legal issues.

Recommended Hands-On Learning Aids:

- CDA Scenario Kit
- Child Care Center Design Kit
- Shaken Baby
- Child Abuse and Neglect Training Kit

Child Development

Goals: Provide a self-paced overview of the fundamental information needed for childcare careers. Introduce practical application of skills with the RealCare Baby® simulation.

Recommended Hands-On Learning Aids:

- RealCare Baby Program
- RealCare Baby Experience Workbooks
- Child Development Online Course

Applications of Education Professions

Goals: Provide the next step in hands-on application of skills for senior students with a simulated childcare center. Integrate advanced leadership soft skills and transferable career skills to make the perfect capstone to a childcare career pathway.

Recommended Hands-On Learning Aids:

- Child Care Experience™ Program
- Leadership Soft Skills Program
