

Training Future Childcare Workers: The Child Care Experience™

Realityworks
Live it. Learn it.™
100% EMPLOYEE-OWNED

1

Realityworks

We partner with educators, administrators and industry leaders to ensure our offerings meet their needs and make lessons truly meaningful.

Realityworks
Live it. Learn it.™
100% EMPLOYEE-OWNED

2

How are your Early Childhood Education Students...

Practicing providing care for multiple children under the age of one?

Preparing for the CDA Credential or other industry recognized credential?

Building confidence and skills prior to their practicum or capstone experience?

3

What is the Child Care Experience?

Simulated child care environment in an infant room

Child care workers care for multiple infants of varying ages simultaneously

Teaches transferable career skills for working with infants

4

5

Why the Child Care Experience was Developed

Provide	A risk-free immersible environment for students to learn from
Provide	A realistic way to gain transferable career skills
Provide	Access to an environment not all students have exposure to
Provide	An advanced level infant care simulation experience

6

Skills Taught in the Child Care Experience

Infant caregiving
skills

Infant CPR
procedures

Infant airway
obstruction
procedures

Employability
skills

Entrepreneurship
skills

And more...

7

Child Care Experience vs. RealCare Baby

Child Care Experience

- Prepare students for careers in child care
- Become certified in infant CPR and infant airway obstruction procedures
- Students working towards industry-recognized credential or certification
 - 1-to-many infant care practice
 - In class pop-up child care simulation

RealCare® Program

- Identify careers working with infant
- Students learn to provide basic infant care
 - 1-to-1 infant care
 - 24/7 care

Abuse Demonstration

The following actions will be recorded as a 'mishandle' event on the student report and are considered abuse to Child Care Baby:

- **Head support failure** – Baby's head falls back, forward or to any side (3-month Baby)
- **Shaken Baby** – Baby's head goes back and forth 3 times within 2 seconds (3-month Baby)
- **Rough handling** – Hitting, kicking, dropping type of movement (3-month and 9-month Baby)

20

Random Event Scenario

- **Step 1:** An audio cue will be given by the tablet
- **Step 2:** A caregiver in the simulation should go to the tablet and choose their name from the dropdown menu identifying themselves.
- **Step 3:** The event will be displayed on the tablet and the caregiver should read it.
- **Step 4:** The caregiver will enter their answer in the space provided and submit it.
- The scenarios and answers will be shown on the reports
