Shaken Baby

Use this simulator and its curriculum to help your students understand the effects of only a few seconds of shaking on an infant's brain and how to safely soothe a crying infant.

Drug-Affected Baby

By emitting the cries and demonstrating the withdrawal tremors of a drug-affected infant, this baby shows the potential impacts of drug use while pregnant.

Preemie Baby

By simulating a preterm infant born at 30 weeks, this baby helps students understand the unique challenges and medical problems often associated with preterm birth.

20-Baby Storage and Charging Cart

Our sturdy 20-Baby cart features lockable wheels and steering handles for easy transportation, plus lock-and-key storage to keep program components secure.

Down Syndrome Baby

Use this simulator to help increase awareness and understanding of births with Down syndrome. Teach the 12 common physical attributes that an infant with Down syndrome may exhibit.

Fetal Alcohol Syndrome Baby

By showing the potential physical effects of prenatal alcohol use, this baby helps students understand the potential impacts of alcohol use while pregnant.

Child Abuse and Neglect Training Kit

Introduce students to four types of child abuse and neglect with this unique kit that addresses risk factors for abuse, how to identify and report abuse, and how to prevent it.

Large RealCare Baby® Supply Pack

Use this package to supplement your RealCare Baby® program. It includes 10 sets of diapers, 20 IDs, 50 participant care cards, 10 bottles, and 240 wristbands.

RealCareer Employability Skills Program

Give students the opportunity to learn 20 soft skills that are key to success in any career with this engaging, easy-to-implement program.

RealCare Baby Experience Student Workbooks

These workbooks contain a compilation of activities that bring to life lessons on parenting, child care careers, and infant care skills.

Child Care Career Scenario Cards

These pathway/occupation-specific workplace scenario cards cover real-world situations in child care careers.

RealCare Baby® 3 Infant Simulator

This is the world's most advanced infant simulator. Educators around the world use this unique learning aid to teach early childhood development, parenting, infant health, and sex education.

Create a Custom Pathway Package

Choose hands-on learning aids and curricula that meet your unique program needs.

All products can be purchased separately

Early Childhood Education Curricula Overview

We combine pathway-specific training tools, resources, and hours of course content to make it easy for instructors to start new pathway programs or update existing classes focused on early childhood education and development.
