

# BOVINE CARE IMPLEMENTATION

From artificial insemination to adult cattle care, learn how Realityworks' bovine simulators bring essential bovine care concepts to life through hands-on training.

## Artificial Insemination

- Learning Objectives:**
- Explain bovine reproductive health
  - Practice AI technique
  - Understand breeding techniques

- Hands-On Educational Tools:**
- Bovine Breeder™ artificial insemination simulator
  - Bovine AI Cervix Training Kit

## Fetal Development and Birthing

- Learning Objectives:**
- Understand bovine fetal development
  - Identify proper birthing techniques
  - Explain birthing presentations
  - Practice conducting ultrasounds and birthing calves

- Hands-On Educational Tools:**
- Bovine Fetal Development Models
  - Bovine Birthing and Ultrasound Simulator

## Calf Care

- Learning Objectives:**
- Understand basic calf care
  - Practice tube feeding, castration, and blood draw

- Hands-On Educational Tool:**
- Calf Simulator

## Adult Care

- Learning Objectives:**
- Explain what bovine growth implants are and what they're used for
  - Practice blood draw, injections, inserting growth implants, and ear tagging

- Hands-On Educational Tool:**
- Bovine Injection Simulator
